

# BK-HPR2-150-DCJ

## Camera and Ringlight Bracket

A low-cost rugged bracket that accepts a range of machine vision cameras and the CCS HPR2 Series ringlights. Ideal for Computational Imaging applications.

### Key Features

- ◆ Rugged construction suitable for both lab and factory floor installations
- ◆ Permits variable camera and light working distances
- ◆ Accommodates leading MV cameras and a 150mm CCS ringlight. Other light sizes available upon request.
- ◆ Multiple mounting options at both light and camera
- ◆ Easy camera height adjustment with thumbscrews
- ◆ Guarantees alignment of camera to light
- ◆ Suitable for both conventional and Computational Imaging applications such as Photometric Stereo

### Specs

- ◆ Fits small cameras from leading manufacturers
- ◆ Rugged 12.7mm diameter steel posts
- ◆ Working distance adjustment range ~ 323 mm (depends on camera and lens)
- ◆ Certain cameras may require different adapter plate or camera slide
